Re: Review of Depreciation Expense in 1997 Annual Report File DWCCA-5450-JPL

Dear Mr. Popp

Paragraph No. 3 of our letter dated September 25, 1996, with regard to analytical review of the 1995 annual report, authorized a revised schedule of depreciation rates which was enclosed with that letter, to be effective on January 1, 1997. Based upon depreciation accruals on page F-7, lines 4-9, these revised rates were apparently not used during 1997. Enclosed with this letter is a copy of the new depreciation rates. Please note that these depreciation rates should be used beginning in 1998.

On pages W-8 and W-9, the amounts for Account 328, Other Pumping Equipment, were reported on the line for Account 327, Hydraulic Pumping Equipment. Please note that the amounts on line 19 should be on line 20.

On pages W-8 and W-9, the amounts for Account 340, Land and Land Rights for Transmission and Distribution Plant, were reported on the line for Account 341, Structures and Improvements for Transmission and Distribution Plant. Please note that the amounts on line 25 should be on line 24.

If you have any questions, please feel free to contact me at (608) 266-1282.

Sincerely,

James P. Luckow

Re: 1997 Analytical Review DWCCA-5450-PJL

Dear Mr. Popp:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. Please provide the number of meters tested during the year, column (g) of the Meters Schedule, on page W-16.
2. Please provide the Average Number of Customer information and the Thousands of Gallons of Water Sold information, columns (b) and (c) of the Water Operating Revenues-Sales of Water Schedule on page W-2.
3. Please provide the maximum and minimum number of gallons pumped in one day during the year, lines 21 and 24 of the Source Of Supply, Pumping And Purchased Water Statistics Schedule on page W-10 as well as the Total kWh used for pumping for the year on line 26
4. Please provide the location in terms of street address, line 2, for the pump reported in column (b) of the Pumping & Power Equipment Schedule or page W-12.
5. The Commission is now using a computerized system to build an annual report database. It is, therefore, important to have a complete and correct annual report. The following changes have been made in our copy of your annual report. Please confirm these changes or indicate the necessary corrections:
